

UNIVERSITY
COLLEGIATE
SCHOOL

The **University Collegiate School** is the newest school in The Keys Federation Multi Academy Trust. Here we “Unlock Potential”.

Our schools are all unique and at our University Collegiate School we invite you to visit to find out if our school is right for your child.

We have a vision for education with technology at its heart which will allow us to engage in a new era of secondary school learning and support students to acquire knowledge, develop life skills, acquire personal resilience as well as engage in critical thinking.

As an award winning digital innovator, our school use Artificial Intelligence in learning to support the core foundations of knowledge, combined with a blend of excellence in subject expertise and on-site facilities.

The University Collegiate School is placed at the heart of the “Knowledge Campus” and works in partnership with the University of Bolton and industry leading companies.

Students will learn in an ethos where we blend traditional values, manners, courtesy and respect with innovation for the future. Together we will ensure your child thrives in an environment of opportunity and is equipped to succeed in life, learning and work.
