Summary of Policy Statement and Main Objectives

This Policy is intended to inform young people and their parents about the travel options and support available locally in order to make informed decisions when making post 16 choices. Receipt of travel assistance in previous years does not guarantee any assistance Post 16.

There is no automatic entitlement to free transport to school or college for students aged 16 and over. The council retains the discretionary power to determine the necessary travel assistance and provisions to support a young person's participation in education and training over the statutory school age.

Local authorities do have a duty under Section 509AA of the Education Act 1996 to prepare and publish an annual transport policy statement specifying the arrangements for the provision of transport or other support that the authority considers it necessary to make to facilitate the attendance of all persons of sixth form age receiving education or training as well as learners aged 19 to 25 with Education, Health and Care Plans, to attend schools and further education institutions.

Wherever possible, it is expected that parent/carers of young people with SEN or a disability make arrangements for their child to attend education in the same way as for parents/carers of children and young people who do not have SEND. This approach, including independent travel where appropriate, is an important factor in developing the children and young people's independence and social and life skills;

Bolton Council is served by a vast network of reasonably priced and accessible transport. Transport for Greater Manchester offer many travel concessions for young people including the 'OUR PASS' which provides free travel for 16-18 year old students, further information is listed below. Independent bus companies serving the area may also provide travel concessions and you should check with the company for the details.

Bolton Council does not provide any free or subsidised travel for post 16 students except in very exceptional circumstances. Specific consideration will be given to those learners with learning difficulties and/or disabilities. Please see page 10 for further information.

Every effort will be made to ensure that transport is provided in the most environmentally sustainable manner available.

Please find below details of concessionary fares and other schemes which will assist with the cost of travel.

Please note the Raising of the Participation Age has not created any new entitlement to free or subsidised post 16 travel assistance – students are not required just to stay on at school or college but can work, volunteer or take part in an apprenticeship whilst continuing their education.

Definition and Points of Clarification

All young people continuing their education post 16 must reapply for travel support. Travel assistance in previous years does not guarantee any assistance post 16.

'Sixth form age' refers to young people who are over 16 years of age but under 19 or

continuing learners who started their programme of learning before their 19th birthday (years 12,13,14).

This policy uses the term 'Post 16' to include both learners of sixth form age and those with learning difficulties / disabilities up to the age of 25.

This policy document specifies the support that Bolton Council (the council) considers necessary to facilitate the attendance of Post 16 learners receiving education or training.

Transport and Travel Support

Greater Manchester public transport is served by Transport for Greater Manchester's (TfGM) Bee Network. The Bee Network offers integrated travel across bus, tram, active travel (walking, wheeling, and cycling), and, ultimately, rail, connecting our residents to opportunities, vital services, and each other.

Alongside operating the Bee Network, TfGM is the body responsible for delivering fares and concessions policy in the city region. At present, Greater Manchester provides one of the most generous ranges of concessions of any city region, in addition to meeting statutory requirements: currently, more than 50% of GM residents are eligible to benefit from a concession.

Young people with SEND, in particular, are eligible to benefit from a wide selection of concessions and discounted ticketing products. A description of these offers and an outline of their eligibility requirements is available in the table below.

For more information on any of these resources, including how to apply for a concessionary pass, please visit the Bee Network website at www.tfgm.com or call the Contact Centre at 0161 244 1000.

1.8 Local Authority support for Post 19 young people

The Council also has a duty under the Education and Skills Act 2008 to encourage, enable and assist the participation of young people with learning difficulties and/or disabilities up to the age of 25 in education and training.

Under the Children and Families Act 2014, the Council may continue to maintain an EHCP for young people over 19 if a young person requires additional time, in comparison to the majority of others of the same age who do not have SEN, to complete his or her education or training. Local authorities may continue to provide special educational provision until the end of the academic year in which the young person turns 25 and the council may provide transport if it is necessary for the duration of the course.

The Council does have a duty under Section 508F (2 and 3) of the Education Act to make travel arrangements where necessary

(2) for adults receiving education at institutions maintained or assisted by the authority and providing further or higher education (or both) or within the further education sector.

(3) where the adult is aged under 25 and is subject to special educational needs and disabilities learning difficulty assessment **and** the local authority has secured the provision of education or training at an institution outside both the further and higher education sector **and** the provision of boarding accommodation. Travel assistance will be provided free of charge for up to 15 return journeys per academic year.

Eligibility for travel assistance is considered having regard to the young person's assessed needs and why it is necessary for the council to make travel arrangements. This could be through your education, health and care needs assessment or the social care assessment.

The criteria that the Council will consider to make a decision on whether the provision of transport arrangements is necessary is as follows:

- An EHCP is in place to support a progression in the young person's education
- The student is attending the nearest appropriate educational placement or training provider and that provision is named in their EHCP and this is more than 3 miles from their home address.
- The student is unable to access public transport due to their special educational needs, disability or mobility difficulty.
- There are no current transport arrangements available

The travel support will be discussed and agreed at the same time as the funding for the placement. There is an expectation that applications for travel support must be submitted on an annual basis; at the same time as the request to extend the education and or training provision.
