Il Impairment	
Ensure Quality First Teaching is in place.	Identification of outcomes linked to relevant VI-specific skills eg, use of equipment, independence, mobility, meeting others, looking after themselves, participation etc.
Use of Ophthalmology reports and Functional Vision Assessment to determine VI level of need.	Ensure that the curriculum is accessible to the child and learning resources are enlarged/ adapted to meet the child's needs.
alysis of test and attainment data e.g. CATS, ading Assessments, Spelling Assessments.	Close working with the Sensory Support Qualified Teacher of the Visually Impaired to plan next steps.
etailed and targeted observations in a range of uations and 1-1 activities to assess use of residual sion if appropriate.	Identify how any barriers to learning and participation will be minimised or removed.
eeting and discussions involving child/young person, irents, SENCo, key staff.	Plan for the classroom environment to be as accessible as possible e.g. a good listening environment and accessible
ntification of any training needs of staff.	Consider the need for, and plan for, any support needed to improve the child's self esteem and social skills.
Assess the teaching style used within the classroom and unsure that there is not an over emphasis on visual learning.	Arrange for any staff training needed.
Consider the child's speed of working and ability to access information.	Plan for the use of any recommended low vision aids e.g. magnifiers etc.
Record the above on an EHA including the impact of any interventions/adaptations.	Use of EHA Action Plan and refer to appropriate services.
